FREIGHT COMPANY.

**MULTIDAY WINDOW SERVICE**  
PRECISION TO MEET RETAIL WINDOW DELIVERY REQUIREMENTS

**HOW SHIPPING IS DONE.**

# A LITTLE WINDOW CAN BE A BIG DEAL FOR YOUR BUSINESS.

YRC FREIGHT HAS THE PRECISION CONTROL YOU NEED TO HIT YOUR DELIVERY WINDOWS.

YRC Freight Multiday Window™ service puts you in control of when your products are delivered. You specify the beginning and end date of the purchase order delivery window (within a 1 to 5 day window) and YRC Freight will deliver by 5 p.m., or end of business day, within that window.

- **By adhering to your customers' window delivery requirements, you improve supply chain efficiencies. This can lower costs and lead to more sales and favorable stocking positions for your products.**
- **Multiday Window shipments will not deliver early or late.**
- **Our delivery process ensures shipments are received according to plan.**
- **Data integrity through EDI adds efficiencies to your entire process, from order processing and pickup to delivery.**
- **We have long-term relationships and integrated processes with major retailers and understand their delivery requirements and the needs of the suppliers shipping to these retailers.**
- **YRC Freight Multiday Window™ service delivers extreme reliability, value and precision.**
- **YRC Freight helps you better manage your scorecard results and increase on shelf availability.**
- **Our reporting capabilities allow you to easily monitor deliveries for proof of compliance with Must Arrive By Date windows.**
- **From the Reports tool on my.yrcfreight.com, go to the Transit Analysis report and select Window Start Date and Window Compliance. Selecting these fields will allow you to view your window shipments in the report and whether the delivery requirements have been met.**

The Transit Time Calculator, available on my.yrcfreight.com, helps you manage your workforce, production schedules, inventory levels and transportation spend by letting you view various shipment pickup dates, by service option, which will meet your customers' delivery requirements.

The screenshot shows the 'Transit Times' calculator interface. It prompts the user to enter origin and destination ZIP/postal codes and select a date option. The origin ZIP is 66211 (USA) and the destination ZIP is 60421 (USA). The date range is set to 'Must Arrive by Window' between 01/19/2017 and 01/20/2017. There are 'Submit' and 'Clear' buttons at the bottom.

The screenshot shows the 'Transit Times Results' table. It displays two service options for a shipment from KS 66211 USA to IL 60421 USA, with a 'Must Arrive by Window' of Thu 01/19/2017 - Fri 01/20/2017. Both services are scheduled for pickup on Tuesday, Jan 17, with 2 transit days and a 'Guaranteed Complete' status.

SERVICE	PICKUP DATE	TRANSIT DAYS	GO TO:	NOTES
YRC Standard LTL - Multiday Window Standard release delivery	Tuesday, Jan 17	2	Guaranteed Complete	ⓘ
YRC Accelerated / Time Critical Faster and more-accurate delivery	Tuesday, Jan 17	2	Guaranteed Complete	ⓘ

For all freight or exclusive use, please call 1-800-610-6500 option 4. All points are direct unless otherwise noted.
